Dear Dr. Komatsu:

I have the honor of informing you that the APS Council of Representatives at its September 2015 meeting acted favorably on your nomination for Fellowship in the Society upon the recommendation of the Division of Astrophysics. As you may know, election to Fellowship in the American Physical Society is limited to no more than one half of one percent of the membership and is recognition by your peers of your outstanding contributions to physics.

The citation, which will appear on your Fellowship Certificate, will read as follows:

"For pioneering use of the bispectrum to study the physics of the early universe and for playing a leading role in the analysis of WMAP data."

Your name and Fellowship citation, as well as the others elected to Fellowship this year will be published in an upcoming issue of *APS News*. It also will appear on the Fellowship Page of the APS website [www.aps.org]. Presentation of fellowship certificates is usually done at the annual meeting of the unit through which you were elected. If you have any questions regarding the presentation of your certificate, please contact the DAP Secretary/Treasurer. Announcement of your election can be sent to your supervisor or institution public affairs office upon request (please send us the relevant contact information).

Congratulations on being elected a Fellow of the American Physical Society.

Sincerely,

A handwritten signature in black ink that reads "Mary Raucci". The signature is written in a cursive style with a large, looped "M" and "R".

Mary Raucci
APS Honors Manager
